Cooperation with CEPOL

The cooperation between CEPOL and the AEPC, formalised by a Memorandum of Understanding signed in 2002, has always been very successful and both institutions have proved more and more complementary, due to their different geographical spread, target group, status and flexibility in the taken actions.

The AEPC and CEPOL have cooperated for years, in the framework of EU programmes and several specific activities. Currently, cooperation covers the following topics:

- Cooperation with the Western Balkans
- European Neighbourhood Policy
- Conference on Leadership
- Bologna Process

The AEPC is also systematically represented during the meetings of CEPOL's Governing Board and External relations working group, while CEPOL is invited to the meetings of the AEPC's Governing Board.
