

Welcome to the ITCCMC !

On the 05th May, the International Training and Civilian Crisis Management Centre (ITCCMC) in Budapest has become the 50th AEPC member college! The great dynamism of the Centre could already be appreciated in January, when they organised the meeting of the AEPC Executive Committee, and we look forward to furthering that cooperation!

The steady expansion of the AEPC shows the interest that the flexibility, dynamism and large geographical span of the network represent for police training institutions throughout Europe!
